

TECHNICAL BULLETIN

FQE® Citrus Degreaser

For complete environmentally friendly degreasing with a pleasant citrus scent

Product Data

Bulk density	8.42 lb/gallon 1009 kg/m ³
Solubility	Complete in Water
Flash point	> 200°F (93°C)
Approximate storage life	1 year

Standard Package

55 US gallons (208 litre) closed head poly drum, tote bin, or bulk.

FQE® Citrus Degreaser is an environmentally friendly concentrated liquid solvent cleaner containing naturally occurring orange terpene solvents together with a blend of selected anionic and non-ionic emulsifiers and penetrating agents.

As a micro-emulsion, it is a high flash point solvent for difficult hydrocarbon soils. The non-hazardous composition and non-combustible character make FQE Citrus Degreaser an exceptional choice for effective and safe work on difficult hydrocarbon fouling. When used it leaves a pleasant orange fragrance.

Application

FQE Citrus Degreaser can be applied by any convenient non-atomizing method. It should be used in areas with good ventilation and kept away from open flames. FQE Citrus Degreaser can be added to solvents and cleaners for improved solubilization of heavy tars and asphalt. Due to its emulsion base, FQE Citrus Degreaser may be rinsed with water or aqueous detergent leaving a water-wet, clean surface.

Dilution

FQE Citrus Degreaser is used as is. It may also be diluted with either petroleum naphthas or with water for general purpose cleaning.
