**FQE® Oil Degreaser is a straw colored, highly alkaline liquid cleaning compound.**

This product is designed for reduced foaming applications and contains sequestering agents to aid in soil removal. FQE Oil Degreaser is designed to be used in the removal of heavy deposits such as those found in heavy oil and grease systems and as a smokehouse cleaner for soot removal. It is effective in the removal of grease and heavy oils typically encountered with heavy machinery and within petroleum processing equipment and rig washes.

**Application**

FQE Oil Degreaser is added at 6-8 ounces per gallon of water. Application on painted surfaces is not recommended. Prolonged contact with painted surfaces may result in removal of the paint.

FQE Oil Degreaser should be allowed to contact the surfaces to be cleaned for as long as possible (a minimum of 5 minutes is suggested) and followed with a thorough water rinse.

**Dilution**

Light duty applications – 2-4 oz. per gallon of water.

Heavy duty applications – 6-8 oz. per gallon of water.
